

SEAPORT CITY

As the world's largest, farthest-inland seaport, more than 1,000 vessels drop anchor here each year—carrying cargo throughout the Great Lakes and across the globe.

Nice lift

Surely you've never experienced as many ups and downs as the famed Aerial Lift Bridge. Originally built in 1905, Duluth's most famous landmark rises dozens of times daily during peak shipping season—welcoming all manner of sailing vessels and visitors, from around the world. Sit on the Canal Park piers and wave to workers on skyscraper-sized freighters gliding through the harbor. It's the perfect place to take solace in inspiring sights and sounds.

227^{ft}

Listen for the "long-short-short"

It's a friendly horn salute to and from ships passing beneath the bridge, which traditionally rises when a boat blows "Long-short-short."

Cruise of a Lifetime

Wonder what it's like to travel the lake aboard a 1,000-foot laker? Visit lsmma.com to enter a contest for just that trip, while helping support the Lake Superior Marine Museum Association.
